## Memorial Lecture Thank You

University of Queensland Law and the Federal Court of Australia have published a joint thank you to everyone who attended the recent Richard Cooper Memorial Lecture.

Presented by the Honourable Justice A M Stewart, this year's lecture was entitled "The fluctuating incidence of the burden of proof under the Hague-Visby Rules: the implications of *Volcafe v CSAV* [2019] AC 358 for the position in Australia".

"Established in honour of the late Justice Richard Cooper of the Federal Court of Australia, we thank those who joined us in Brisbane for this special occasion and also those who tuned in from the courts across Australia," states the message.

"We hope to see you at the 2020 lecture, which will be dedicated to native title."
